GEOGRPAHY

Country profile plates

Task - pick a country

Research the country to create a geographical profile about it.

Your profile must include:

- The country's flag
- A map of the country
- Population statistics
- Climate information
- Five other facts

Population statistics

Could include:

- total population
- life expectancy
- birth rate per 1,000
- death rate per 1,000

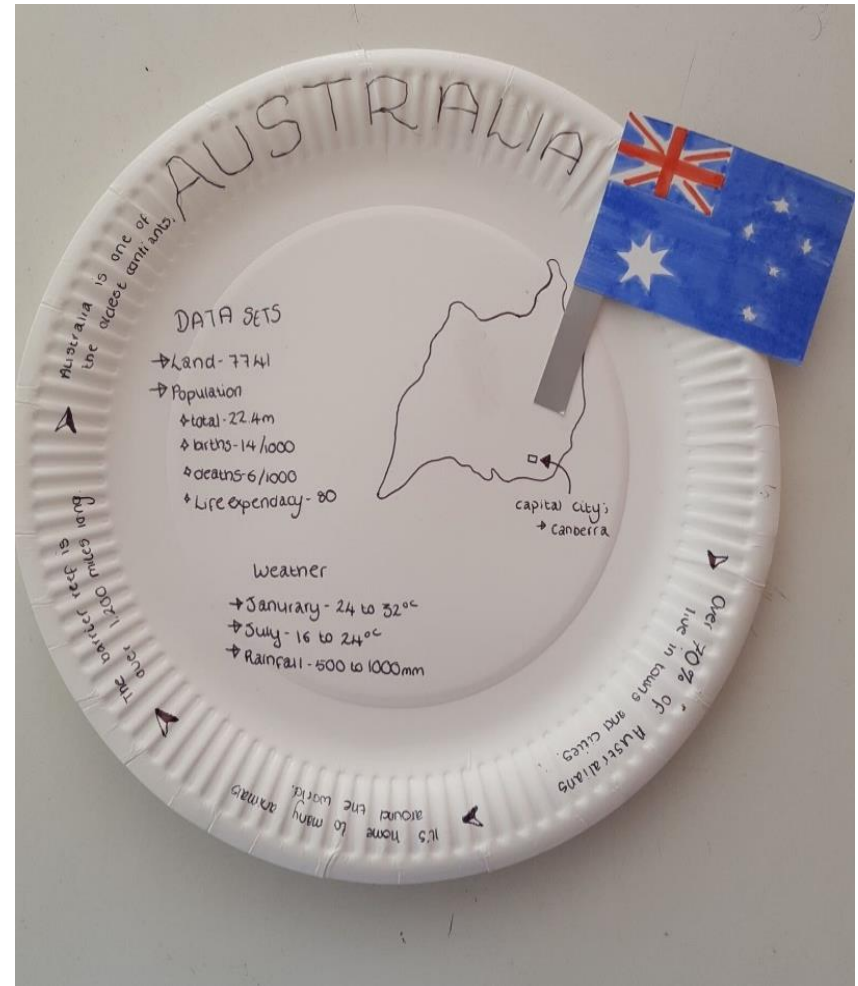

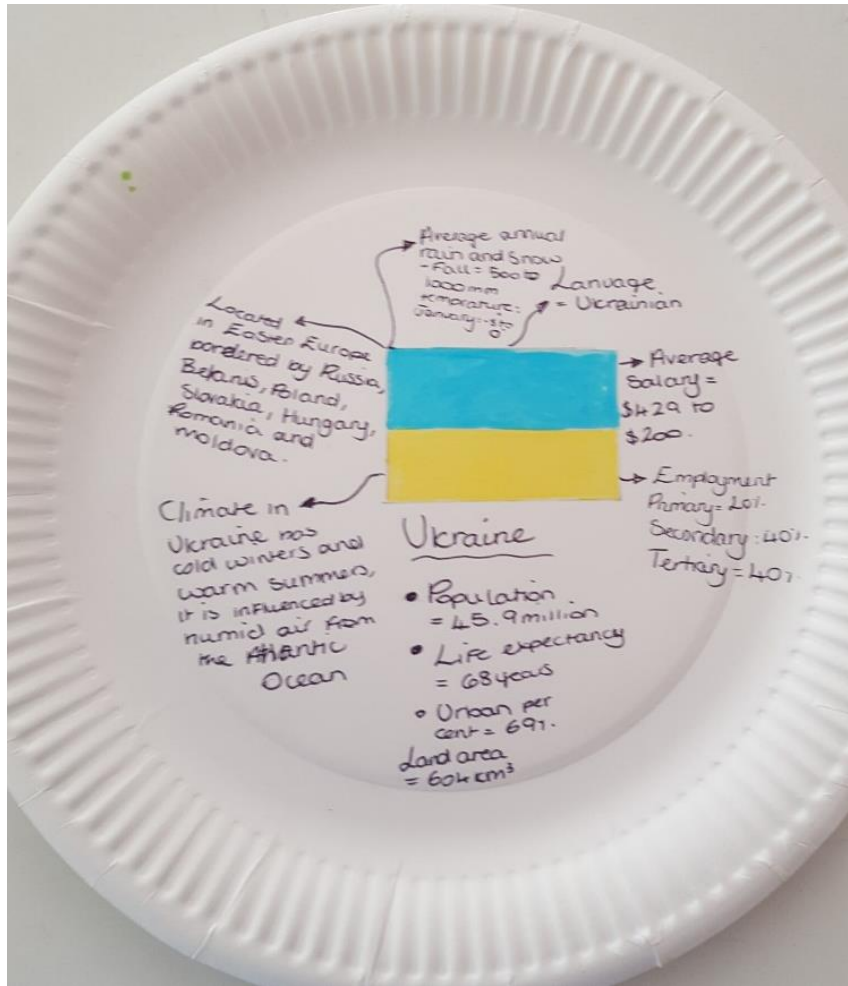

Climate Information

Could include:

- climate zone
- average annual rainfall
- average summer temperature
- average winter temperature
- average hours of sunlight
- climate hazards in the country

Examples

How could these be made better?

If you haven't got a paper
plate then use a plain
piece of paper
