## **Re: Options 2026**

Prynhawn da to all parents/carers of Year 9 pupils,

As a key part of our options process, I have attached the 'Year 9 Options Booklet 2026' via this [link](#) for your information.

Inside you will find a guide to the core subjects which pupils will undertake as part of their studies, plus non-core, **potential option courses and qualifications** which pupils may choose to study in Year 10.

We trust that this booklet will form a useful starting point in terms of your KS4 option subject discussions at home. A series of videos will also follow shortly (which will be accessible through the school's website), again providing details of course contents and assessment models.

Please note that this is only the 'information sharing' stage of the options process. We would encourage you to use **Year 9 Parents' Evening on the Thursday following the Easter break (16th April 2026)** as an opportunity to discuss further details of potential Y10/11 subject and qualification choices with our specialist subject teachers.

Our school-based Careers Wales Adviser (Miss S. Llewellyn) will also be available with additional information, and I will be on-hand to meet with any parents/carers and pupils who may have questions.

Although the booklet provides an overview of a range of subjects, please be aware that the **options/qualifications that will eventually make-up the final option blocks will be subject to the number of pupils opting to follow these courses and the availability of staff to teach specific subjects; we reserve the right to amend our offer based on this information.**

I hope this information proves very useful and look forward to welcoming you along to Parents' Evening at the start of the Summer Term..

Cofion gorau,

*G. Fowler*  
*Pennaeth Cynorthwyol / Assistant Headteacher*
